is necessary to change immediately to a positive behavior.

102) Inhumane behaviors are primitive behaviors.

103) Inefficient behaviors surely lead us to failures.

108) Successes can not be achieved without perseverance.

109) Some successes are due mostly to favorable circumstances and a lot less to other people.

110) Some successes are due to the greatest extent to the qualities of people and less to favorable circumstances.

111) Those who seek favorable conditions through perseverance and documentation surely have better chances to find favorable situations.

112) Those who do not seek favorable circumstances think that everything is unfortunate; they are not looking for blame, they are passive and wait for luck to fall from heaven.

113) We want to be lucky, and we have to persevere if we want to be lucky, we must look, better document everything about what we want, and then we can say that we are lucky.

114) There are certain situations for certain persons who do not make excessive efforts and meet favorable situations, which have helped to achieve

what they wanted, but they are not at all the same for everyone.

115) Some people have an enormous positive influence on many people, they are models of good will.

116) For as long as we live we must seek to have relationships of friendship with special people, who have many successes, many qualities, many positive and effective behaviors in order to learn from them as much as possible. This rule, this principle helps us achieve much easier and more personal goals.

117) The bar is extremely important for many people but unfortunately, in many cases, it does not have many of the quality that it should have, in almost all the world.

118) Unfortunately, there is a great number of lawyers who should be behind bars, because of the many crimes that they have done, and damage that they have

done because of irregular relations with customers.

119) Some lawyers, many believe it, have participated actively and passively to the achievement of many injustices, illegalities of their clients, worldwide, in almost all the countries of the world.

120) It is necessary in the world's majority of states for the quality of lawyers to work up to the required level of reality, because there are possibilities to do so, but it is necessary to act in this regard.

121) For as long as we live, continually, day by day, we need to have personal goals to develop harmonious personalities.

122) Each parent is required to ensure continuously, day by day, living conditions for the necessary growth and education of his children and for the harmonious development of their

personality.

124) Each parent is required to give the time and attention necessary to the education, guidance, consultation and raising of children.

125) It is needed to create financial and legal conditions, to give the time required by parents to educate, advice, consult, raise their children, to develop their harmonious personality.

126) Spouses need to preserve the unity and trust between them after they have children, so that children do not get this

unity and trust affected.

127) Crises made by children should not lead us to panic, we need to have much tact, deal with great diplomacy, logic and understanding with them.

128) To resolve the crises of children, we must not act rashly since we can lead to more complicated problems, and not solve them. Good luck.

129) Spouses have to agree on what they do in dealing with children, to have a unite behavior in order not to harm any children or relations between them.

130) Mature love can exist both in the third age as in youth.

131) We can make life a lot more beautiful if we only act with an effective positive behavior.

132) Parents should be very careful with children and never forget to recognize all their positive achievements, to reward

them in one way or another.

133) Recognizing and rewarding the positive behavior of children by their parents moves the children very much, making them continue in that positive behavior.

134) In everything we do we must be disciplined. We know all the rules but unfortunately we do not respect most in many situations.

135) Discipline in everything we do helps us greatly to achieve our personal goals faster.

153) Failure or failures should not discourage us.

154) You must use failure as a stepping-stone to other successes.

155) Often, if we had failures, we can learn much more from them than from successes, but this should not justify our failures, but look for the causes of failures and take preventive measures to stop our future failures.

164) The common interests of employers and employees are much more important than the different interests.

165) Ignorance is directly or indirectly

the cause of most crimes.

166) Inadequate education makes a lot of us not achieve personal goals.

167) Inadequate education diminishes the number and quality of opportunities to encounter favorable circumstances.

168) Many of us have the qualities and skills necessary to grow and be educated properly, but unfortunately not all have the time needed and they make big, very big mistakes, which later are not good for anything that we did. Warning also to successful people who can prevent this mistake.

169) We must prevent the formation of greed in children.

170) Only activities as helping others take us towards achieving successes.

171) Only activities as helping others take us towards achieving effective co operations.

190) The act of justice, this process would increase enormously if all lawyers would do a job of an appropriate quality.

191) Increasing the efficiency of justice should be one of the main objectives of each state, because it is of little importance in many states.

192) Unfortunately in many states there still is no justice, there is injustice, given the number of inadmissible irregularities,

decisions handed down virtually illegally and that exceed those laws in some states.

193) Some judges in some states in 2007 are still incredibly irresponsible.

194) Happiness makes us eager to keep living.

195) Happiness makes us be more optimistic.

196) A judge is a big risk.

197) A judge must give a lesser punishment because it is wrong to give a greater punishment illegally.

198) A judge makes a lesser mistake if he gives a smaller sentence than to abuse and be wrong so as to give an illegally bigger punishment.

199) A judge makes a grater mistake if he gives a bigger sentence to a person who does not have sufficient evidence to convince him that the defendant is guilty % than punishes him with X years in

prison in an abusive, illegal way.

200) Judges from around the world must not forget for any second that they have very high responsibilities, as there are unfortunately many judges in many states.

201) A judge who is irresponsible, he must take the decision to leave the post of judge in one way or another, because the law forbids him to be a judge in this case.

202) Corruption in the judiciary area may be reduced by the state very much in a very short time but states will not act effectively to prevent corruption in justice.

effects, very high in most states.

215) Discrimination very much adversely affects the harmonious development of the personality of many children of the world's states.

217) Unfortunately, discrimination is not prevented and combated as it is necessary in most world states.

218) Human communication greatly increases the chances to achieve personal goals.

219) Human communication helps us keep our marriage happy.

About the author and his ideas

Hmm ... I do not know where to begin. It is difficult to really know someone. Often, the person on whom you stopped is difficult to decipher.

That is not the case of Gheorghe Cornel Ardelean. From the first moment I knew and he got my attention.

I recognized him immediately from the descriptions made by his colleagues: "One small, with white haired man with many books and newspapers in his hand, they said. My curiosity pushed me to address him, cheerful, open; he began to talk to me as if we knew each other for years. A person opened both to dialogue as well as current jokes. I got to know him

even better when we met at Club Central. A nice company as long as you succeed not to be attracted in that part of the discussion where his future plans are. Plans that are repeated endlessly become a burden for the people around him. Not because it would be something wrong in what he says but through their very repeatability.

On several occasions I have read some of his meditations, others have been published in the magazine "Freedom in Thought".

By their simplicity and the fact that they expresses absolute truths, for those who do not take seriously the writings of Cornel Gheorghe Ardelean they may seem indeed to read seriously what to write, I bet they will find

among the apparently simple lines, a message equal to a person who has suffered enormously because of human and system injustices.

The cry of a man eager for more, eager for simplicity, for the truth and for a Utopia, wishful of a perfect world.

If even 10% of what he writes would be put into practice by us, then certainly we would set ourselves and with others at the same time. Surprisingly, nobody sees that Cornel Gheorghe Ardelean even puts into practice what he writes, which means that he really believes it.

With an analytical style impossible to confuse, Mr. Cornel Gheorghe Ardelean is successful in a few lines and penetrates into the

essence of truth. By this thinking, he is venturing into an area still unexplored in specialized literature.

Specialized topics are part of the absolute truths that each of us have deep within our being, so acknowledged, so obvious, so natural that no one has ventured to put them on paper.

But surely there will be many who, after reading and rereading these absolute truths will solve many of the problems of their existence. The novelty that makes Cornel Gheorghe Ardelean stand out besides putting on paper a well-known truth, is that it also leads to problem solving. It is a promising start in an area of astute competition and often an unscrupulous one.

I wish you success Mr. Ardelean and may these meditations help as many people as possible. Do not give up, continue on the path that you have chosen and maybe in the nearer or further future the world will be at least 5% as you want it to be.

Do not give up ... We ... only a few, I must admit, we are beside you.

I have known the economist Cornel Ardelean for dozens of years, as a guy that outraged the thought of some who did not believe in his ideas, innovative, simply put but with a long and efficient duration. After the Revolution he proved that he is indeed a good economist by founding the first small enterprise of Arad County, in the year 1990 of the post-communist age.

I have always been by Cornel Ardelean's side, never ceasing to believe that the man can rise above his time if he wishes to and if he has the potential to do it.
