Indeed there are situations, moments in which **love** for us is the greatest treasure, however we can not generalize that this is the greatest treasure of life automatically. If we can look deeply in a general way we can not practically determine which the greatest treasure is. For example, our wisdom can be evaluated as the largest treasure for many reasons.

Usually the wise manage to achieve true **love** and retain it. Without wisdom is very difficult to make and keep a true **love**. About the author and his ideas

Hmm ... I do not know where to begin. It is difficult to really know someone. Often, the person on whom you stopped is difficult to decipher.

That is not the case of Gheorghe Cornel Ardelean. From the first moment I knew and he got my attention.

I recognized him immediately from the descriptions made by his colleagues of detention: "One small, with white haired man with many books and newspapers in his hand, they said. My curiosity pushed me to address him, cheerful, open; he began to talk to me as if we knew each other for years. A person opened both to dialogue as well as current jokes from detention. I got

to know him even better when we met at Club Central. A nice company as long as you succeed not to be attracted in that part of the discussion where his future plans are. Plans that are repeated endlessly become a burden for the people around him. Not because it would be something wrong in what he says but through their very repeatability.

On several occasions I have read some of his meditations, others have been published in the magazine "Freedom in Thought" of the cenacle "The Handcuffs of Time."

By their simplicity and the fact that they expresses absolute truths, for those who do not take seriously the writings of Cornel Gheorghe Ardelean they may seem indeed to

read seriously what to write, I bet they will find among the apparently simple lines, a message equal to a person who has suffered enormously because of human and system injustices.

The cry of a man eager for more, eager for simplicity, for the truth and for a Utopia, wishful of a perfect world.

If even 10% of what he writes would be put into practice by us, then certainly we would set ourselves and with others at the same time. Surprisingly, nobody sees that Cornel Gheorghe Ardelean even puts into practice what he writes, which means that he really believes it.

With an analytical style impossible to confuse, Mr. Cornel Gheorghe Ardelean is successful in a

few lines and penetrates into the essence of truth. By this thinking, he is venturing into an area still unexplored in specialized literature.

Specialized topics are part of the absolute truths that each of us have deep within our being, so acknowledged, so obvious, so natural that no one has ventured to put them on paper.

But surely there will be many who, after reading and rereading these absolute truths will solve many of the problems of their existence. The novelty that makes Cornel Gheorghe Ardelean stand out besides putting on paper a well-known truth, is that it also leads to problem solving. It is a promising start in an area of astute competition and often an unscrupulous one.

I wish you success Mr. Ardelean and may these meditations help as many people as possible. Do not give up, continue on the path that you have chosen and maybe in the nearer or further future the world will be at least 5% as you want it to be.

Do not give up ... We ... only a few, I must admit, we are beside you.

I have known the economist Cornel Ardelean for dozens of years, as a guy that outraged the thought of some who did not believe in his ideas, innovative, simply put but with a long and efficient duration. After the Revolution he proved that he is indeed a good economist by founding the first small enterprise of Arad County, in the year 1990 of the post-communist age.

I have always been by Cornel Ardelean's side, never ceasing to believe that the man can rise above his time if he wishes to and if he has the potential to do it.
